

Let's go on holiday!

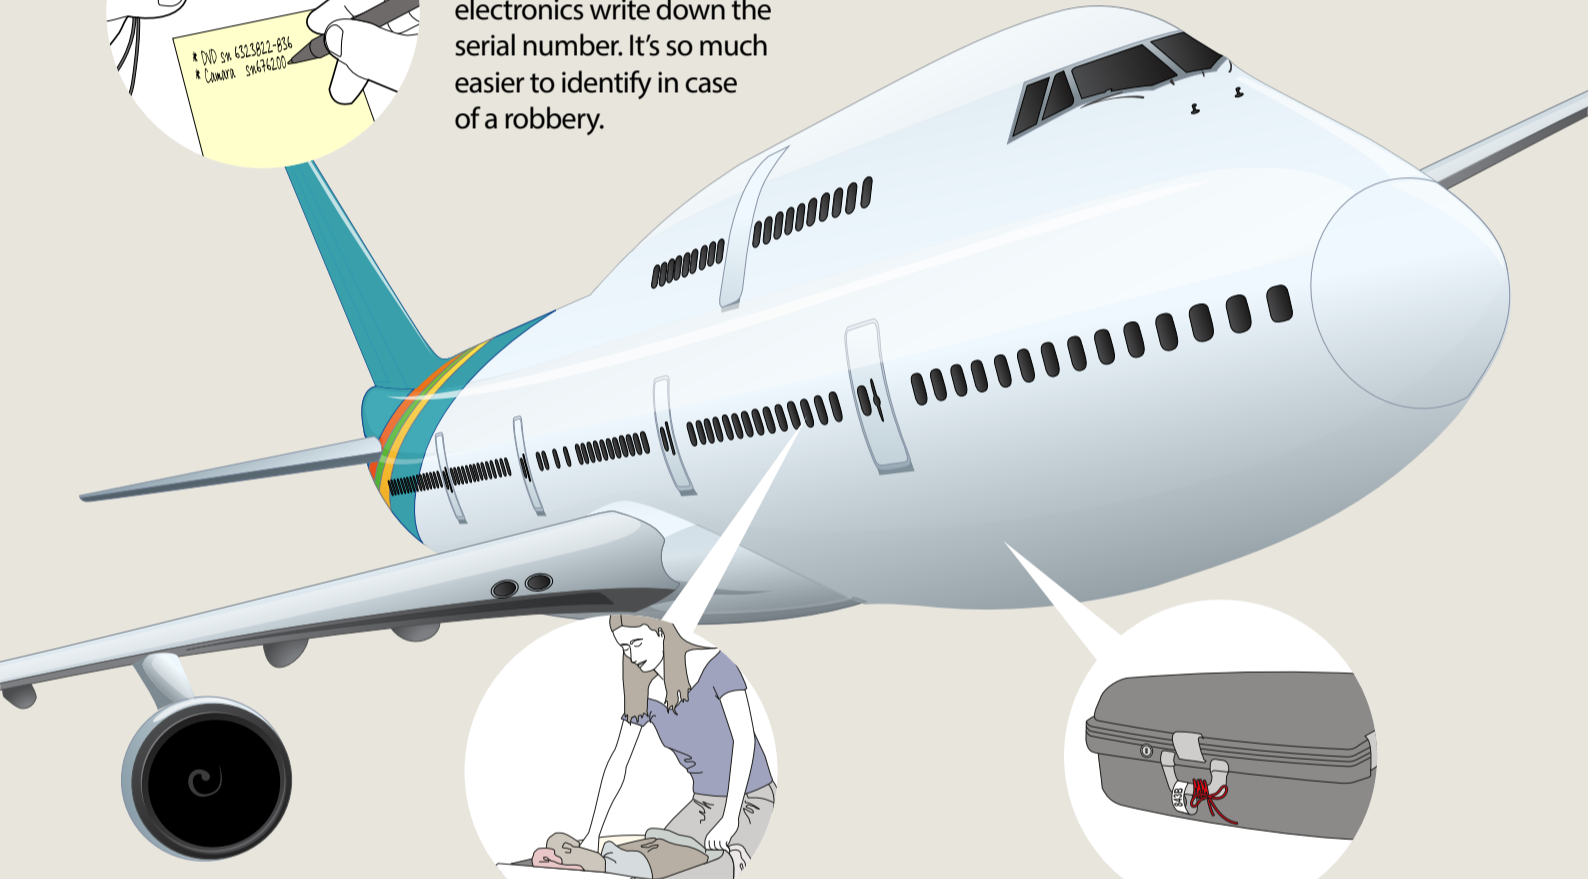

IDENTIFICATION

Do not forget to always carry all important identification documents and health/insurance cards.

MOBILE, CAMERA, MP3 PLAYER...

If you are travelling with electronics write down the serial number. It's so much easier to identify in case of a robbery.

HAND BAG

Do not store any money or identification documents in your luggage. Keep them safe and close to you at all times in your hand bag.

LUGGAGE

Tag all your belongings. This can save a lot of time and trouble when making a claim in case of loss.

AT THE HOTEL OR APARTMENT

SAFE

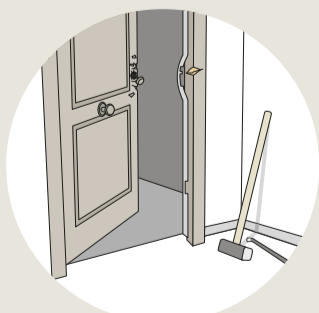

Do not leave any valuables, money or identification documents out in the open. Rent a safe.

MONEY

For your safety, avoid carrying large amounts of money when you travel. Use credit or debit cards instead.

COMING BACK HOME

If you see any lights switched on, broken windows or forced doors, when you get home, do not go inside. Alert authorities immediately.
